

LOG STACKER

Stacks firewood the easy way!

- Adjusts to any length up to 8' (2.4 m) and up to 4' (1.2 m) high using common "2 x 4" boards.
- Keeps logs dry by elevating them off the ground and away from the walls.
- Stacks wood or other stackable items neatly on porch, deck, garage, etc.
- Keeps your space clean and organized.
- Made of durable plastic that assembles quickly, no tools.

Stacks up to 1 face cord of wood

INSTRUCTIONS

Package contains two brackets. Designed to be used with common "2 x 4" boards on any level surfaces. For one face cord, four 8' (2.4 m) "2 x 4" boards are required.

Insert two equal length "2 x 4" boards through horizontal slots to form base. Stacking area can be changed by length of boards used (max. 8' / 2.4 m).

Insert four "2 x 4" boards (maximum length of 4 feet / 1.2 m) into vertical slots to form the uprights
